### Bowness Dance out

16<sup>th</sup> August

Last night Crook had our second “official” dance out of the year and our first alone as Crook out having fun on a Monday night. Bowness was full of life, and the rain even held off for us! It was fabulous to see nearly all of our musicians playing together again and you would never know that it has been so long since they have done this. They played a few tunes too when they sensed that the dancers needed a breather... thank you! We managed to dance 11 dances with a very appreciative audience who looked to be enjoying it as much as we were. We managed a 12th bonus dance of Bonny Green Garters with 3 guest dancers from the audience and I think it's safe to say that we made their night. Special thanks to our two wonderful audience members and friends of Crook who stood all night and held our 'safety tape' for us with no complaints (or heckling)!
